HELPING YOU BECOME A MORE EFFECTIVE EDUCATOR

## HELPING EDUCATORS CONNECT MORE EFFECTIVELY WITH THEIR STUDENTS

If you've ever asked yourself what you are doing wrong, and why you can not get through to a student, you're not alone. Too often, Teachers do not have enough tools or resources to connect to a student.

Michael Grande has spent over thirty-five years educating thousands of children and has developed methods that will help you connect and develop rapport with even the most difficult students.

When applied correctly, you will open up a world of possibilities to help change the lives of hundreds (or even thousands) of children.

## MISSION | MISCONCEPTION | AUDIENCE

To offer an alternative approach on how to educate our children while focusing on their individual strengths and learning language and not rely on standardize testing.

People do not remember what they have been taught, they remember how they were treated. Our goal as Coaches is to bridge that gap and inspire children to want to learn.

Our audience is as diverse as our children. Colleges, Music Schools and Institutions can greatly benefit from Michael's presentation on the alternative approach of 'Coaching'.

# WORK IN RWANDA

In 2022 Michael spent time in Rwanda. In a small music school in Africa, Michael converted sixteen music Teachers into Coaches.

The goal was to demonstrate how being a Coach to a child is more effective than being a Teacher. This concept not only worked for the sixteen 'Coaches', but was adopted by the Minister of Education (MINEDUC) for the country of Rwanda to use in their school system.

## FROM TEACHER TO COACH

(And why you would NEVER want to be a Teacher)

In his book, *From Teacher to Coach (And why you would NEVER want to be a Teacher)*, Michael speaks about his experiences with 'Teachers' and 'Coaches'.

As a certified secondary school Teacher in New York City and California, as well as being a private music Coach, Michael clearly saw the differences in children who were taught by a Coach compared to the students taught by a Teacher.

While Teachers focus on 'Teaching', Coaches focus on the child!

For over thirty-five years, Michael has trained and employed those who work in his music schools how to be a Coach and is now sharing all of his techniques and strategies to help other educators employ these techniques and improve the lives of their students.
